PRODUCT DESCRIPTION

With an extensive range of Push Button, Vandal Resistant, Piezo, Slide, Toggle and Rocker switches available, Bulgin & Arcoelectric's switch range is designed to meet the design requirements of a wide variety of industry applications ranging from medical and industrial to marine and commercial electronics. Bulgin's push button switches are available in front and rear panel mounted versions with three profile types including prominent, domed and low profile as well as rugged stainless steel anti vandal options.

Multiple switching options are available along with IP66, IP67 & IP68 sealed variants in addition to momentary and latching actuation. Illumination versions are available in dot and ring LED indication and a selection of illuminating colours, including bi-colour and tri-colour. Newer versions also feature LED illumination driven by 6V, 12V and 24V together with rear of panel sealing.
